

## WILDFIRE

October 3, 2019

Patrick Bell  
North Bonneville Fire and Rescue  
PO Box 7  
North Bonneville, WA 98639

Subject: Transfer of DNR engines

Chief Bell:

On behalf of the Department of Natural Resources (DNR), I'm pleased to inform you that DNR has determined to transfer DNR Engine AIS-7728 to North Bonneville Fire and Rescue under the terms identified on page 2 of this letter.

Please obtain the appropriate Fire District signature(s) on page 2 of this letter agreeing to the terms of the transfer and return this entire letter to:

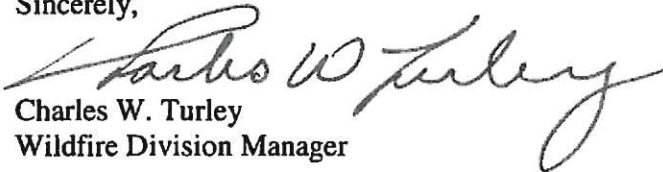

Department of Natural Resources  
Attn: DNR surplus engines  
Wildfire Division  
1111 Washington St SE  
MS 47037  
Olympia, WA 98504-7037

DNR will, upon receipt of the returned signed letter, contact you to finalize transfer of this vehicle to the District.

If you have questions, please contact Darrel Johnston (DNR Fire District Assistance Program Manager) by email at [darrel.johnston@dnr.wa.gov](mailto:darrel.johnston@dnr.wa.gov) or by telephone at 360-902-2112.

The purpose of DNR engine transfers is to support a resilient, effective wildland firefighting network by providing resources for local fire protection districts. These local resources strengthen safe wildfire response capability in wildfire-prone areas in proximity to DNR jurisdiction.

Sincerely,

Charles W. Turley  
Wildfire Division Manager

c: Darrel Johnston, Fire District Assistance Program Manager
